

SAVINO®

TODAY'S WINE TOMORROW
Preserving Wine with Elegance & Beauty

INSTRUCTION GUIDE

SAVINO

FLOAT

LID

Remove & discard plastic stand. Wash your **SAVINO** prior to the first use. **SAVINO** is dishwasher safe. Remove the silicone pieces from the float & lid. Place all (glass, float & silicone) in dishwasher.

Pour contents of wine bottle into **SAVINO** immediately upon opening.

Insert **FLOAT** at an angle. Inserting it this way reduces the friction & is easier to insert. Oxidation is slowed down as soon as the float is covering the wine.

Insert **LID** to create a spill proof seal. **SAVINO** keeps your wine fresh for a week allowing you to enjoy Tuesday's wine on Saturday.

Put **SAVINO** in your refrigerator just as you would a bottle of wine. It is designed to fit most refrigerators & works with all non-sparkling wines.

Remove lid & pour wine with float still in **SAVINO**. The float will return to its sealing position when upright.

Savino is designed, manufactured, and assembled in the USA from the highest quality BPA free materials & crafted with the utmost care. If you are not 100% satisfied with your Savino, please contact:
